About us

About us

We are an indoor golf centre that target to grow the game of golf by applying avant-garde technology to enhance different levels of player enjoyments.

We are operating with TrackMan units and systems which is the most accurate launch monitor and simulator provider in the market trusted by the best in the world. TrackMan not only provides golfers of different levels with statistics of their swing characteristics to help them improve, it also provides loads of courses and games for players to experience their improvements. We also provide video practices for players to monitor their swing adjustment progress.

TrackMan 4

The **best** launch monitor

TrackMan 4

With a TrackMan Simulator, the whole golf experience is deeply immersive. Second-to-none functionality, hyper-realistic graphics, and breathtaking gameplay make for the best golfing experience outside of the course, 365-days a year.

Every time you hit a shot you receive key information in real time. Select a view that fits your needs, from easy-to-understand numbers to video recordings to a 3D view of the ball flight. Right at your fingertips.

Know more about TrackMan 4 please visit www.trackman.com/golf/trackman-4

- Target Practice Range
- On Course Practice
- Test Centre
- TrackMan Combine
- Course Play
- Game - Magic Pond
- Game - Hit it!
- Game - Capture the flag
- Game - Closest to the flag

Shot Analysis

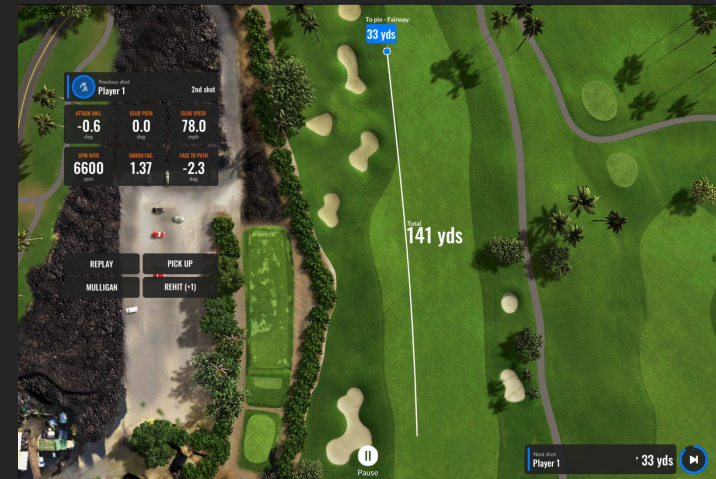

Practicing at Tour Mechanics is simply awesome. Golfers can understand their impact factors through TrackMan simulation and data. Golfers can review their own swing motion through TrackMan's video capturing feature. With such feature, every shot will be captured by cameras and be shown on the TrackMan interface which golfers can analyze and share their videos by just a few second.

Course Play

Over 170 golf courses around the world are available at Tour Mechanics, including over 40 tour venues. TrackMan uses a drone flyover of golf courses to create a 3D lidar map with bunkers, fairways and greens that are as life-like as is possible in TrackMan relentless drive for perfection. It's mapping, design and quality control harmonized to deliver carbon-copy experiences.
